

Monday, May 26, afternoon

Time	chair: Eduard Marušić–Paloka
16:00–16:30	Tomislav Pažur Error analysis of implicit Runge-Kutta methods and discontinuous Galerkin discretizations for linear Maxwell's equations
16:35–17:05	Senka Maćešić Penalty immersed boundary method in piezoelectric eel models

Time	chair: Eduard Marušić–Paloka
17:30–18:00	Tomislav Fratrović Asymptotic analysis of the polymer fluid flow through a porous medium
18:05–18:35	Mate Kosor Rod boundary problem: existence and stability of solutions
18:40–19:10	Bojan Žugec One dimensional model of biodegradable elastic curved rods
