

Tuesday, May 27, morning

Time	chair: Zvonimir Tutek
8:45– 9:35	Stevan Pilipović Anti-Wick and Weyl quantization on ultradistribution spaces
9:40–10:30	Andrey Piatnitski Discrete double porosity models

Time	chair: Zvonimir Tutek
11:00–11:50	Grigory Panasenko Method of asymptotic partial decomposition of domain for non-steady problems set in thin rod structures
11:55–12:25	Josip Tambača A shell model for shells with little regularity
