

**Wednesday, May 28, morning**

<b>Time</b>	chair: Josip Tambača
9:05– 9:35	Boris Muha Regularizing effects of a thin elastic interface in fluid-structure interaction problems
9:40–10:30	Anna Marciniak-Czochra Diffusion-driven unbounded growth and dynamical spike patterns in reaction-diffusion-ode models

<b>Time</b>	chair: Josip Tambača
11:00–11:50	Ansgar Jüngel The boundedness-by-entropy principle for cross-diffusion systems from biology
