# Thursday, May 29, afternoon

| Time | chair: Vjeran Hari |
|------|--------------------|
| 16:00–16:30 | Martin Lazar <br> Stability of observations of partial differential equations under uncertain perturbations |
| 16:35–17:05 | Darko Mitrović <br> On the velocity averaging for equations with optimal heterogeneous rough coefficients |

| Time | chair: Vjeran Hari |
|------|--------------------|
| 17:30–18:00 | Jelena Aleksić <br> H-distributions via Sobolev spaces |
| 18:05–18:35 | Marin Mišur <br> On H-distributions |
| 18:40–19:10 | Marko Erceg <br> Localisation principle for 1-scale H-measures |
